1-Month Bodyweight Strength Foundation

Workout Frequency: 3 days per week (Monday, Wednesday, Friday).
Rest: 90-120 seconds between sets.
Goal: Build foundational strength with perfect technique.

Exercise	Sets	Reps / Duration
Chin-ups	3	Max quality reps (leave 1-2 reps in reserve)
Bodyweight Squats	3	12-15 reps
Bulgarian Split Squats	3	8-10 reps each leg
Glute Bridge	3	12-15 reps
Plank	3	30-60 seconds
Dead Hang	3	20-60 seconds

Progression: Each week, add 1-2 reps if you complete all sets with good form. Once the top of the rep range feels easy, progress to a harder variation.
